Gusts

Hazardous Weather

Hazardous Weather

A tight pressure gradient across the Southern Plains today will result in south winds increasing to 15 to 20 mph with higher gusts approaching 35 mph across a few locations this afternoon. Winds will begin reaching criteria by late morning and will continue through early evening. Boaters should exercise caution on area lakes and waterways due to rough chop conditions which can capsize small craft. East and West bound high profile vehicles will be affected by the winds and should be alert for sudden high wind gusts

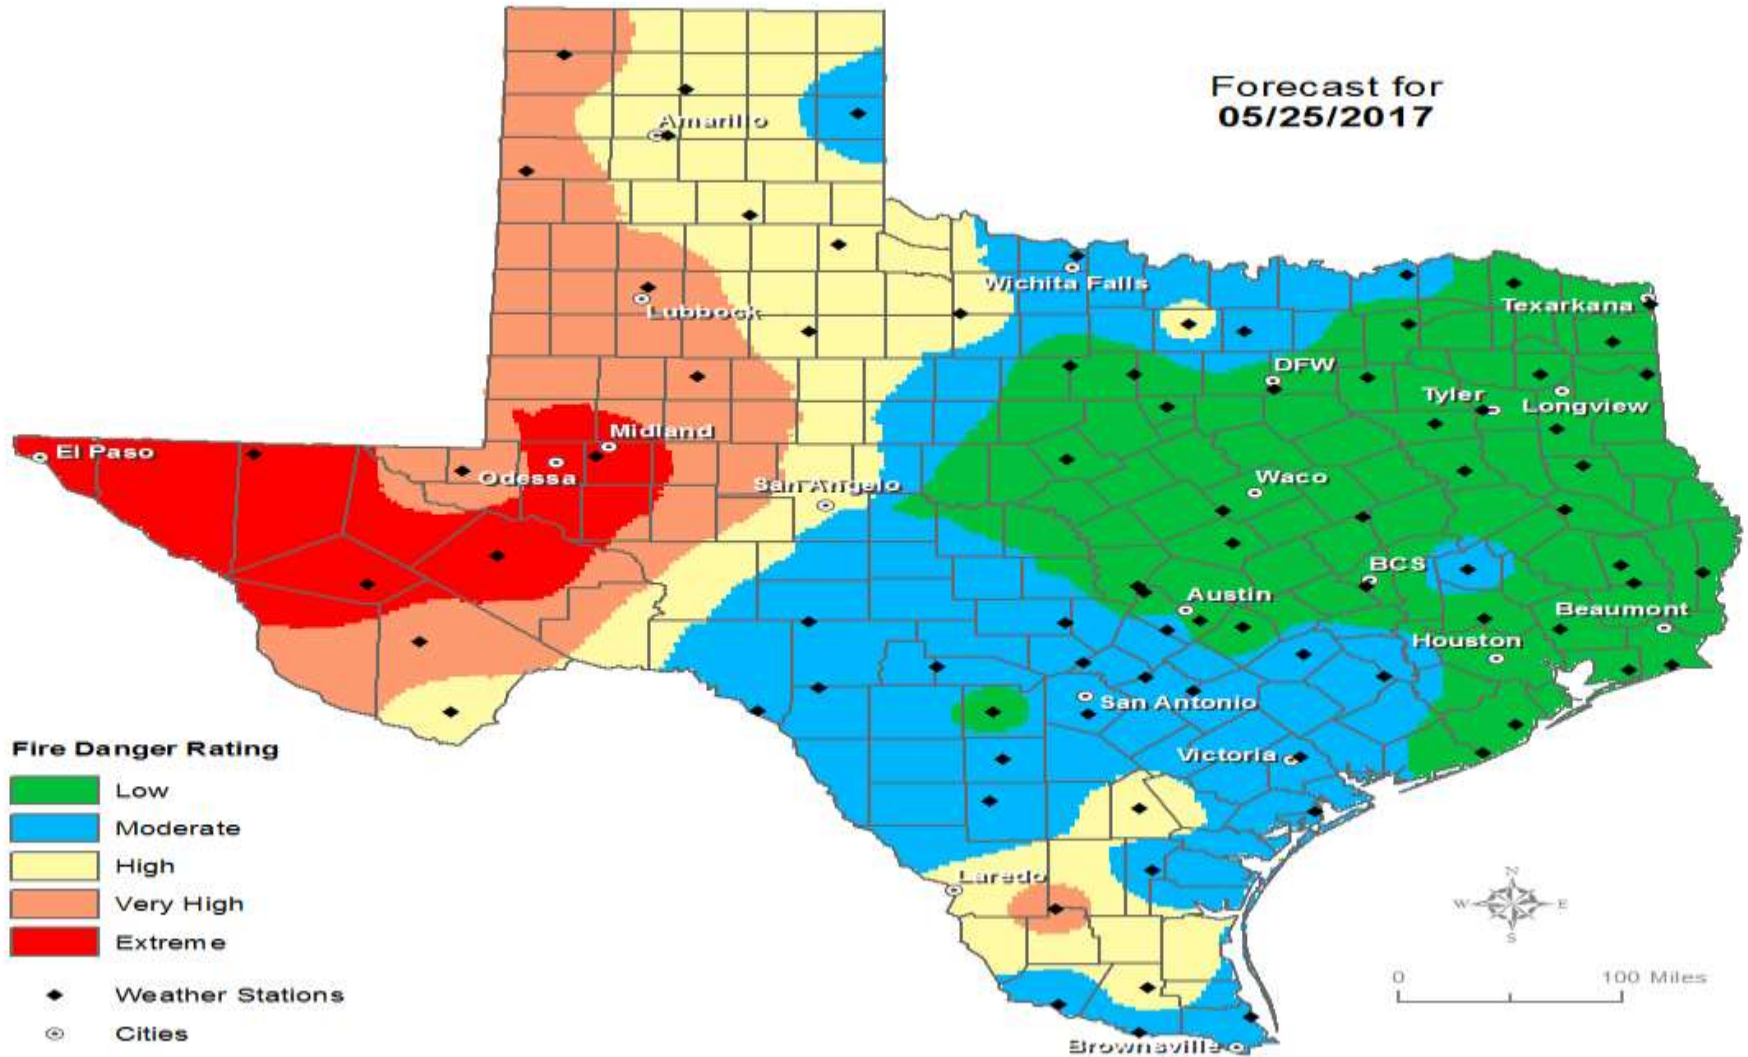

Weather Warning/Advisories Issued

DATE	WARNING TYPE	LOCATION
05/24/17	Flood Warning Continues	Anderson, Angelina, Cherokee, Houston, Trinity Counties
05/25/17	High Wind Warning	Guadalupe Mountains
